National Institute for Theoretical Physics
Call for Bursaries for 2013

The National Institute for Theoretical Physics (NITheP) offers bursaries on the Honours, Masters and Doctoral levels for students studying in Theoretical Physics. These bursaries are available at ALL South African tertiary institutions. In cases where there is no formal program in Theoretical Physics, we will endeavour to support graduate projects which qualify as being of a theoretical physics nature by involving co-supervisors from those institutions which do host such programs.

The current values and duration of the bursaries are as follow:

Honours degree: R40,000 for one year full time study
Masters degree: R55,000 for two years full time study
or R36,666 for three years part time study.
Doctoral degree: R75,000 for three years full time study
or R56,250 for four years part time study.

To apply for a bursary please complete the online application form at [http://nithep.ac.za/2ex.htm](http://nithep.ac.za/2ex.htm). The closing date is **30 November 2012**. You will be notified of the outcome of your application as soon as possible. If your application is successful, payment of the bursary will only commence once proof of registration has been received. This should also be e-mailed to Ms Monique Louw at moniquel@sun.ac.za.

If you are currently a NITheP bursary holder, and you qualify for an extension for your current degree, you only need to e-mail your **proof of registration for 2013 and a progress report (signed by your supervisor)** to the above e-mail address. Note that if you completed your degree as a NITheP bursary holder in 2012, and wish to continue with a more advanced degree in 2013, you must submit a new application via the NITheP website.

**Should you have any further questions, please do not hesitate to contact Monique Louw at:**
